

# Your **ECOTOX** and **RESIDUE** partner since 1992

### EXPERTISE

### RELIABILITY

## PROACTIVITY

- Laboratory and field studies
- European project management
- Method development
- International ring tests

Residue studies (crop, rotational, processing, postharvest) / Soil accumulation and dissipation / Dust drift / DFR / Pollen and nectar / Field and semifield studies on honeybee, bumblebee, osmia / Efficacy testing against varroa / Brood tests / Laboratory studies (acute and chronic toxicity) / Tailor made studies

#### TESTAPI

115 Route du Pô 49650 Allonnes – France (*A85 exit Saumur*)

# GLP certification

- N°2: toxicity studies
- N°4: Environmental toxicity studies on aquatic and terrestrial organisms

State of the state

- N°5: Studies on behaviour in water, soil, air; bioaccumulation
- N°6: Residue studies
- $N\,^\circ 7:$  Studies on effects on mesocosms and natural ecosystems
- N°9: tolerance studies in target species ; efficacy studies

#### **GLP Veterinary Certification**

Non-clinical safety studies carried out on the veterinary medicinal product (*toxicity, residue, efficacy and tolerance studies*)

Residue Dept. : frederic.lebrun@testapi.fr celine.bousquet@testapi.fr
